Limited Restricted Plumbing Contractor License

During the 2012-2013 Session of the North Carolina General Assembly, the following amendment to General Statute 87-21 (b)(2)b was enacted:

- b. The Board shall establish and issue a limited plumbing contractor license for use by persons who do not possess the required Class I or Class II plumbing license but desire to engage in the contracting or installation, repair, or replacement of either of the following:
1. Exterior potable water service lines or backflow preventers serving irrigation systems or domestic water service systems of two inch diameter or smaller.
 2. Exterior building sewer or water service piping of two inch diameter or smaller.

Following the enactment of the amendment, an ad-hoc committee consisting of plumbing and irrigation professionals and board members worked together to develop the proposed rules changes necessary to comply with the statute.

Following the publication of the proposed rules, a comment period was provided and a public hearing was held at the Plumbing Board's office. The proposed rules were then reviewed and approved by the Legislative Rules Review Commission. Amendments to the following rules became effective April 1, 2014 and were published by the Office of Administrative Hearings on April 7, 2014.

Following the publication of the approved rules, the Board staff has worked to implement the new licensing qualification. Due to the time required to publish the rules and applications, update the computer system, and complete other implementation tasks, the 120 day period specified in the rules will begin on May 10, 2014 and will expire on September 8, 2014.

Additional information can be found on the Exam Information page of our website.

Residential Fire Sprinkler Installation Contractor License

In 2012, the Board began offering the Residential Fire Sprinkler Installation Contractor License for currently licensed plumbing contractors who wish to install multi-purpose plumbing / fire sprinkler systems in one and two family residential dwellings.

The 2014 offering of the class is scheduled for October 29 & 30, 2014, in Greensboro, NC. Attendees may take the licensing examination on the afternoon of the second day immediately following the conclusion of the class or at a later date if so desired.

The cost for the class is \$25.00, and the examination fee is \$100.00. Completed applications and class registration must be received by September 30, 2014. Upon successful completion of the class and passing of the exam, the license fee is \$130.00 annually.

For more information concerning the class, including the registration procedure and cost, please visit the Exam Information page of our website.

21 NCAC 50 .0516 RESIDENTIAL FIRE SPRINKLER INSTALLATION LICENSE

License in the Residential Fire Sprinkler Installation Contractor classification is required of persons who engage in the business of contracting to perform or performing the installation of multipurpose one or two family residential water-based plumbing and fire sprinkler piping systems consistent with NFPA-13D. All multipurpose one or two family residential plumbing and fire sprinkler piping systems shall be hydraulically calculated and designed by a licensed North Carolina Fire Sprinkler Installation Contractor. The licensed Residential Fire Sprinkler installation contractor may also utilize a system calculated and designed by a North Carolina licensed engineer for each specific installation. Residential Fire Sprinkler Installation Contractors shall perform each installation consistent with the calculation and design. Any single purpose residential water-based fire sprinkler system shall be installed by a licensed Fire Sprinkler Installation Contractor.

21 NCAC 50 .0301 QUALIFICATIONS DETERMINED BY EXAMINATION

(a) In order to determine the qualifications of an applicant, the Board shall provide a written or computer-based examination in the following categories:

(12) Restricted Limited Plumbing Contractor

(b) Each person being examined by the Board for a contractor license other than a Fire Sprinkler Installation or Inspection Contractor license shall be required to pass both the business and law part and the technical part of the examination required by G.S. 87-21(b).

(j) Applicants for a license as a Restricted Limited Plumbing Contractor shall obtain a license based on experience set forth in Rule .0306 and shall be required to pass both the business and law part and the technical part of the Restricted Limited Plumbing Contractor examination.

(k) If application is made on or before 120 days from the effective date of this Rule, applicants for Restricted Limited Plumbing Contractor license who present a current active License from the North Carolina Irrigation Contractor Licensing Board are not required to take the Board administered examination, provided the applicant:

(1) Presents evidence of passage of a locally administered examination covering the same topics as the Board examination, resulting in certification as a Backflow Inspector by one of the municipalities in North Carolina, or evidence to establish 1000 hours of experience in the maintenance, service or repair of components of plumbing systems, and

(2) Completes a plumbing code course offered by the Board and passes the Laws and Rules part of the examination administered by the board.

21 NCAC 50 .0306 APPLICATIONS: ISSUANCE OF LICENSE

(a) All applicants for licensure or examination shall file an application in the Board office on a form available on the Board website or by contacting the Board office.

(j) Applicants for a Restricted Limited Plumbing Contractor license shall present evidence at the time of application to establish 1500 hours of full-time experience in the installation, maintenance, service or repair of plumbing systems, whether or not a license was required for the work performed. Up to one-half of the experience may be in academic or technical training related to the field of endeavor for which examination is requested. The Board shall prorate part-time work of fewer than 40 hours per week or part-time academic work of less than 15 semester or quarter hours.

(k) In lieu of the requirements of Paragraph (j) of this Rule, applicants for a Restricted Limited Plumbing Contractor License who present a current active License from the North Carolina Irrigation Contractor Licensing Board may take the examination, provided the applicant demonstrates that he or she holds certification as a Backflow Inspector from one of the municipalities in North Carolina, or demonstrates 500 hours of experience in the maintenance, service or repair of components of plumbing systems.

21 NCAC 50 .0518 RESTRICTED LIMITED PLUMBING CONTRACTOR LICENSE

Licensure in the Restricted Limited Plumbing Contractor classification is required of persons who do not possess a license as a plumbing contractor, but contract install, repair or replace:

(1) exterior building sewer piping, as defined in the North Carolina Plumbing Code, which is hereby incorporated by reference including all subsequent editions and amendments. The document can be accessed at <http://www.NCDOI.com/OSFM/Engineering>.

(2) exterior water service piping two inch diameter or less, as defined in the North Carolina Plumbing Code;

(3) exterior backflow preventers connected to water service piping two inches in diameter or less; or

(4) water filtration systems or components of water filtration systems that filter, treat, condition or remove impurities from potable water by means of a fine physical barrier or membrane, a chemical process or a biological process, and which are installed on a water distribution line or water service piping, as defined in North Carolina State Plumbing Code.

21 NCAC 50.1102 LICENSE FEES

(k) The annual license fee for a Restricted Limited Plumbing Contractor is one hundred thirty dollars (\$130.00).

Disciplinary Actions

The Board is required by law to investigate every complaint received. If the findings of the investigation indicate that a violation of the laws and rules enforced by the Board have occurred by a licensed or unlicensed individual and/or firm, a number of disciplinary actions are available to the Board.

Recent actions are reflected in the four reports that follow:

- Letter of Caution Report
- Consent Agreement Report
- Field Resolution and Resolution Review Committee Report
- Attorney's Report

Letter of Caution Report

Upon completion of investigations, a Letter of Caution can be issued to a licensee where it is determined through an investigation that a violation has occurred by one of our licensees. The Letter of Caution is issued to address and affirm issues they should improve upon or be more mindful of for future jobs:

Resolution Review Committee Report

A Field Resolution Agreement is a voluntary agreement by which a licensee enters into some type of sanctions against their license instead of appearing before the Resolution Review Committee or the Full Board at a formal hearing. All of the Agreements are reviewed by a member of the Resolution Review Committee and then presented to a Board hearing panel for approval prior to the agreement being adopted as a final agency decision. If a complaint has not been resolved in the field through a Field Resolution Agreement, then the case can be referred to the Resolution Review Committee. During the Resolution Review Committee meeting, a licensee can enter into a Review Committee Resolution Agreement in place of appearing before the Board at a formal hearing; the agreement is then presented to a Board hearing panel for approval prior to the agreement being adopted as a final agency decision. Cases that cannot be resolved through the use of Field Resolution Agreements or Review Committee Resolution Agreements are forwarded to formal hearings before the Board. Listed below are the different agreements entered into by the field staff and the Resolution Review Committee that have been approved by the Board. The information below does not contain all of the facts or details of each case. Specific details of any of the following cases can be obtained by e-mail (information@nclicensing.org) or upon written request to the Board's office.

Absher, Michael
Energy Management Heating &
Air Conditioning, Inc.
Gastonia, NC

License# 32098, H-2-3-I

Stephen Adams signed a Proposed Resolution Agreement 03/13/2014.

The license of Stephen Adams, number 20162 H-3-I, and that of the firm shall be placed on unsupervised probation for a period of six (6) months. Within 60 days from signing this agreement the licensee shall obtain a final inspection of all open permits or submit evidence of his efforts to obtain final inspection for each job. The licensee shall submit a letter to each homeowner, certified mail return receipt, notifying the homeowner that the installa-

tion performed is required by state law to be inspected by the local inspection department and that failure to have the installation inspected could lead to the electrical or gas service being disconnected from the structure by the local code enforcement official. The letter should ask that the homeowner notify the licensee within 10 days of receipt of the letter to schedule a date for inspection. Within 15 days of sending the original letter, the licensee shall send a second letter, certified mail return receipt, to those homeowners who have failed to respond in the timeframe prescribed above, notifying the homeowner that the installation performed is required by law to be inspected by the local inspection department and that failure to have the installation inspected could lead to the electrical or gas service being disconnected from the structure. A copy of both letters shall also be sent to the appropriate local code enforcement official's office and to the Board's office. If the licensee violates the conditions of probation, his license will be suspended for a period of ninety (90) days, with the requirement that prior to the suspended license being reinstated he must comply with all of the probation provisions listed above. The licensee shall enroll in, attend and complete the Special Board Laws & Rules course. If the licensee violates the conditions of probation, his license will be suspended for a period of three (3) months, with the requirement that prior to the suspended license being reinstated he must comply with all of the probation provisions listed above.
