Is Your License Active?

If you are one of the one-thousand or so individuals who has still not yet renewed your license for 2020, it is illegal for you to engage in any contracting activities until the license is renewed.

Contracting activities include, but are not limited to, bidding, quoting, contracting, obtaining permits, or performing any work which requires a license.

Most, if not all, local permitting offices across the state routinely check the status of the license before issuing a permit and will deny the permit if the license is not current.

Annual license renewals began on October 1, 2019, and renewal invoices were mailed to all active licensees, as well as licensees whose license expired in 2016, 2017 & 2018. The notices contain your username and password, in the event that you wish to renew online. Renewal notices are mailed to the address of record. Licensees are responsible for updating any change of address with the Board within 30 days of such change.

If you did not receive a renewal notice and wish to renew by mailing a paper form to the office, please visit the Forms page of our website and download the appropriate form. If you wish to renew online and did not receive a form with your username and password, please contact the Board's office for assistance.

If not renewed by January 31st, licenses are subject to a \$25.00 late renewal processing fee.

Is Your Information Up To Date?

Each year, the Board sends annual renewal notices to every licensee that we have an e-mail address on file for, and we send paper renewal forms to the last known mailing address to every licensee. Each year, we get hundreds of 'undeliverable' e-mail returns and dozens of 'undeliverable' paper forms. Many of the licensees who fail to renew the license before the expiration date state that they did not receive any renewal notices. Each licensee is responsible for keeping the Board informed of his/her current address and e-mail address. If you need to update your information, please download the Address Change Form from the Forms page of our website. Regardless of whether the licensee receives a renewal notification, he/she is responsible for renewing the license on time.

This is also a good time to make sure that your license is properly listed in the way that you are doing business. Board rules require that your license be listed in the name that you conduct business, whether that be your individual name, a sole proprietorship, general partnership, corporation, LLC or DBA (doing business as).

If you are doing business in any name other than that which is currently associated with your license, you are in violation of the Board's rules. If you need to change the name, you can submit a Trade Name Change form, available on the Forms page of our website.

Disciplinary Actions

The Board is required by law to investigate every complaint received. If the findings of the investigation indicate that a violation of the laws and rules enforced by the Board have occurred by a licensed or unlicensed individual and/or firm, a number of disciplinary actions are available to the Board. Recent actions are reflected in the four reports that follow:

- Letter of Caution Report
- Consent Agreement Report
- Field Resolution and Resolution Review Committee Report
- Attorney's Report

Letter of Caution Report

Upon completion of investigations, a Letter of Caution can be issued to a licensee where it is determined through an investigation that a violation has occurred by one of our licensees. The Letter of Caution is issued to address and affirm issues they should improve upon or be more mindful of for future jobs:

Resolution Agreements

A Field Resolution Agreement is a voluntary agreement by which a licensee enters into some type of sanctions against their license instead of appearing before the Resolution Review Committee or the Full Board at a formal hearing. All of the Agreements are reviewed by a member of the Resolution Review Committee and then presented to a Board hearing panel for approval prior to the agreement being adopted as a final agency decision. If a complaint has not been resolved in the field through a Field Resolution Agreement, then the case can be referred to the Resolution Review Committee. During the Resolution Review Committee meeting, a licensee can enter into a Review Committee Resolution Agreement in place of appearing before the Board at a formal hearing; the agreement is then presented to a Board hearing panel for approval prior to the agreement being adopted as a final agency decision. Cases that cannot be resolved through the use of Field Resolution Agreements or Review Committee Resolution Agreements are forwarded to formal hearings before the Board. Listed below are the different agreements entered into by the field staff and the Resolution Review Committee that have been approved by the Board. The information below does not contain all of the facts or details of each case. Specific details of any of the following cases can be obtained by e-mail (information@nclicensing.org) or upon written request to the Board's office.
