Is Your Contact Information Up To Date?

There are currently over 15,000 active licensees of the Board, and about 11,000 have email addresses associated with them. Our goal is to have a valid email address for every active licensee in our database, which would give us the ability to contact everyone in a very timely manner.

We regularly attempt to send emails via the internet and "snail mail" through the U.S. Postal Service; unfortunately, we receive many notices of undeliverable emails and many pieces of returned mail due to incorrect or inactive addresses. This includes annual renewal invoices, newsletter publishing notifications, and information regarding special information such as upcoming classes, public hearings, or other events that are of importance to licensees. We also frequently find that the telephone numbers that we have are no longer active or no longer belong to the licensee.

These situations require extra time and effort by the Board staff in trying to find ways to contact licensees, but more importantly, it delays or prevents the staff from being able to share important, and often time sensitive, information with licensees.

Licensees can now log in and update their physical address, email address and telephone numbers online. You will need your Login ID and Password, which were listed on your recent annual renewal invoice. You may also use the links on the page to recover a forgotten User ID and/or reset your password. Please note that when changes are submitted, it is in the form of a request that must be reviewed by a staff member and approved before the changes will appear on the public license search information. A change needs to be submitted only once. Please allow 5-7 days for the change to appear, and do not submit more than one request.

There are also several other services available through the Online Services page of our website, including the following:

- Online Complaint (file a complaint against licensed or unlicensed contractors)
- Book Order Form (Board Laws & Rules, Business & Project Management for Contractors)
- Reprint of License (annual renewal certificate or original gold-seal certificate)
- Register of Licensees (listing of currently active licensees)
- Verification of License (often needed by other states when applying for licensure there)
- Listing of Applicants (for exam prep course providers to notify of upcoming classes)

Paper forms are still available for download on the Forms page of our website, and most are in fillable .pdf format. If you choose to submit a paper form by mail, please make sure that you are using the latest version available. If outdated forms are used it may delay processing due to incorrect or missing information, or fees in the wrong amount.

A copy of your annual certificate may also be printed through the renewal portal at no charge.

Disciplinary Actions

The Board is required by law to investigate every complaint received. Recent actions are reflected in the four reports that follow:

Letter of Caution Report

Upon completion of investigations, a Letter of Caution can be issued to a licensee where it is determined through an investigation that a violation has occurred by one of our licensees. Resolution Agreements

A Field Resolution Agreement is a voluntary agreement by which a licensee enters into some type of sanctions against their license instead of appearing before the Resolution Review Committee or the Full Board at a formal hearing. All of the Agreements are reviewed by a member of the Resolution Review Committee and then presented to a Board hearing panel for approval prior to the agreement being adopted as a final agency decision. If a complaint has not been resolved in the field through a Field Resolution Agreement, then the case can be referred to the Resolution Review Committee. During the Resolution Review Committee meeting, a licensee can enter into a Review Committee Resolution Agreement in place of appearing before the Board at a formal hearing; the agreement is then presented to a Board hearing panel for approval prior to the agreement being adopted as a final agency decision. Cases that cannot be resolved through the use of Field Resolution Agreements or Review Committee Resolution Agreements are forwarded to formal hearings before the Board. Listed below are the different agreements entered into by the field staff and the Resolution Review Committee that have been approved by the Board. The information below does not contain all of the facts or details of each case. Specific details of any of the following cases can be obtained by e-mail (information@nclicensing.org) or upon written request to the Board's office. Agreements begin on page 6.
