Technical Examination Waiver Agreements

§ 87-21. Definitions; contractors licensed by Board; examination; posting license, etc.

(g) The Board may, in its discretion, grant to plumbing, heating, or fire sprinkler contractors licensed by other states license of the same or equivalent classification without written examination upon receipt of satisfactory proof that the qualifications of such applicants are substantially equivalent to the qualifications of holders of similar licenses in North Carolina and upon payment of the usual license fee.

G.S 87-21(g) gives the Board the authority to grant certain exceptions to the required experience and examination requirements for contractor licensing eligibility. This can only be done after a complete and exhaustive review of the experience and examination requirements of another state, which is conducted to determine if the requirements of the other state are substantially equivalent to the North Carolina requirements for licensing.

There is no license reciprocity. All applicants must meet the North Carolina experience requirements. The technical exam waiver applies only to the technical section of the exam. Anyone who meets the experience requirements and technical examination waiver requirements must still take and pass the required North Carolina business section of the exam.

At the current time, North Carolina has a technical examination waiver agreement with only the state(s) listed below for only the license(s) listed below.

There are currently no other waivers available for any other states or any other licenses.

<u>State</u>	<u>Active Contractor License</u>	<u>Eligible for North Carolina License</u>

The Waiver Form can be downloaded from the Forms page of the website in the Technical Examination Waiver Forms section. The completed waiver must be submitted with the application.

Military Veterans Licensure Without Examination

The applicant satisfies the following conditions:

- (1) Has been awarded a military occupational specialty and has done all of the following at a level that is substantially equivalent to or exceeds the requirements for licensure of the occupational licensing board from which the applicant is seeking licensure in this State: completed a military program of training, completed testing or equivalent training and experience, and performed in the occupational specialty.
- (2) Has engaged in the active practice of the occupation for which the person is seeking a license, certification, or permit from the occupational licensing board in this State for at least two of the five years preceding the date of the application under this section.
- (3) Has not committed any act in any jurisdiction that would have constituted grounds for refusal, suspension, or revocation of a license to practice that occupation in this State at the time the act was committed.
- (4) Pays any fees required by the occupational licensing board for which the applicant is seeking licensure in this State. (\$30.00 application fee \$150.00 annual License fee)

No later than 30 days following receipt of an application, this licensing occupational licensing board shall notify an applicant when the applicant's military training or experience DOES NOT satisfy the requirements for licensure, and shall specify the criteria or requirements that the board determined that the applicant failed to meet and the basis for that determination.

Establishing Experience Requirements for Military Spouses

Consistent with GS93B – 15.1, the Board accepts the experience of our military veterans as evidence in obtaining license from the Board. The Board considers the nature of the military program of training, completed testing or equivalent training and experience and performance in the plumbing, heating, or fuel piping contracting.

MILITARY SPOUSES

Pursuant to the same Statute and rule cited above, military spouses may obtain license by presenting evidence of licensure in other states and a sworn statement from a licensing authority with respect to the nature of the examination and experience.

To work here he/she has to have a NC license issued by the State Board of Plumbing, Heating & Fire Sprinkler Contractors. The applicant is going to have to demonstrate he/she holds a valid plumbing, heating, or fuel piping contractor license in another state, complete an application, allow time to review of that application to confirm substantially equivalent licensure, and pay a \$30 application fee and annual license fees of \$150.

The military spouse must satisfy the following conditions:

- (1) Holds a current license or certification from another jurisdiction, and that jurisdiction's requirements for licensure or certification are substantially equivalent to or exceed the requirements for licensure or certification of the occupational licensing board for which the applicant is seeking licensure, or certification in this State.
- (2) Can demonstrate experience for at least two years in the installation, maintenance, service or repair of systems for licensure.
- (3) Has not committed any act in any jurisdiction that would have constituted grounds for refusal, suspension, or revocation of a license to practice that occupation in this State at the time the act was committed.
- (4) Is in good standing and has not been disciplined by the agency that had jurisdiction to issue the license, certification.
- (5) Pays any fees required by the occupational licensing board for which the applicant is seeking licensure, certification, or registration in this State.
